

QUALITY POLICY STATEMENT

The Quality Policy of SouMac Assembly Services Limited promotes the following:

- Commitment to the requirements of ISO 9001 : 2008
- Product quality to the requirements dictated by the customer or in the absence of any such requirements to the workmanship standards laid down in the current version of IPC-A-610 (class 2)
- No-clean fluxes in use
- Availability of Pb-free assembly processes
- To meet or exceed agreed delivery requirements
- Pro-active complaint handling to include written notification of actions taken to prevent recurrence
- Strict ESD handling controls
- Monitoring, measuring and data analysis of key QMS and product realisation processes to provide verifiable proof of continual improvement
- Stringent supplier controls
