

## **COUNTERFEIT COMPONENT POLICY STATEMENT**

Soumac Assembly Services understands that product quality is the cornerstone to success and fundamental to the needs of our customers. Therefore, we feel it is our duty to ensure that we have stringent policies and strict processes to protect our valuable reputation and that of our customers.

Soumac Assembly Services purchase components directly from manufacturers, manufacturer's approved franchise distributor or manufacturer's approved agent or representative

Soumac Assembly Services continuously monitors the performance of its approved component suppliers utilising a variety of criteria, continuously updating with the latest secure trends and industry best practices.

Soumac Assembly Services recognises counterfeit components affect our relationship and credibility with customers; however, certain hard-to-find or obsolete products cannot always be obtained from primary sources. In these instances, Soumac Assembly Services will procure from sources that provide the least risk. It may be necessary to source components through brokers or independent distributors, verified by our approved suppliers and subject to clients' approval.
